Let's Find You A Job

The Growth Itinerary

1

We start by educating student about what digital marketing is and how we can link entrepreneurship and digital together. We talk about the various opportunities that lie in this field and how can one shape their career with digital marketing.

We start by creating and setting up the website. Once that is done we move into the core of digital marketing. We cover each of the modules one by one, SEO,SEM,SMM,Email Marketing, and Affiliate Marketing, exposing students to the practical way of doing work, industry standards and approach and the art of handling crisis.

2

3

Once the students are thorough with the digital marketing modules, we shift our focus to the earning opportunities that these students have by working as freelancers along with their college studies. Here we focus on the What, Where and How of Freelancing. What services to offer, and Where all to list these services and How to get and manage clients.

We know how important finding a job is for you. We will help you prepare for the rigorous placement process. Tips and guidance on how to create resumes and online profiles and how to crack aptitudes, group discussions and interviews.

4

5

Finally we will tell you how to apply for digital marketing jobs outside of your college. We will guide you as to how and where you can apply, how to write a cover letter, provide you with a list of companies that have vacancies and offer jobs and internships to the a selected few participants.
